Our Activities & Evaluating Activities

1. Orientation

– Dhaka Orientation

- Bangladesh language education
- Visiting Bangladesh Historical site
- Presentation about NCYB & Bangladesh basic inform
- Visiting Dhaka YMCA School
- Meeting Dhaka YMCA Youth Forum

– Birisiri Orientation

- Presentation about Birisiri YMCA inform
- Presentation about Garo Community Culture
- Bangladesh language education

1. Orientation

-At dhaka orientation, we learned whole Bangladesh. At Birisiri orientation, we learned Birisiri and Garo Culture. It was beneficial time to know a point of difference between Garo and Bangladesh.

-At Gathering with Dhaka Ymca youth forum member, we want to show many pictures and information. But, because of poor internet situation, we could not use enough information. If we notice these demand in bangladesh, we can bring much information. We want to tell next RaonAtti group.

-In same context, it was better we prepare Korea traditional dance and song.

-It will be more effective we learned Bangla simple self-introduction and basic conversation at Korea and then learn more at Bangladesh.

2. Dahapara

– School

- Currently, 40 Students are registered. 1 Class, 1 Teacher.
- Because of financial reason, average attending students are only 34 students. (20 Boys, 14 Girls)

• Teaching Area.

Math: Teaching Bangladesh Number and Basic Calculation.

English: Teaching Alphabet, English Vocabulary and English Songs.

Art: Drawing Picture and other Activities.

P.E.: Variety Activities such as Soccer and rope skipping.

– Clinic

- Until July, 2012, Medicines and treatments were free. However, to protecting the misusing of medicines, now Dahapara Clinic charges treatment fee(20Tk) and Medicines(the open market price)
- Covering Area : Common cold/Diarrhea/Fever/Malaria/Cholera/Whooping Cough/Other disease
- Wall painting

2. Dahapara

2. Dahapara

- At the opening period, we felt that the situation of school is poor and children are too young to teach what we prepared. But the situation is getting better gradually. We are getting know children better and students are making their system. Little by little, we are discovering children's talent.
- Since November, we are preparing children's test which is taken an examination at early December. During one month, we were skeptical that this class is not effective to children. It is better teacher teach students. Especially, math and English are too hard to divide the profit level. In some case, we can know student's level and Bangladesh education system.
- Our classes are improved because we know children's level. We need more communication.
- We are planning to focus cultural program after the student's test.
- At Dahapara clinic, we have a role which we registered patients. But, during the time when we stay at dahapara, there are not many patient.
- Recently, we did wall painting at dahapara clinic building.

3. Korea language class

- Target: Birisiri YMCA Youth Forum Members
- Contents: Korean Grammar and Basic Conversation.
- Every Sunday and Wednesday 2 hours.
- Now, Students can do basic conversation and read HANGUL.

First : Every Raonatti member taught

Second : Each classes, we picked one of Raonatti members as teacher. Making materials of basic characteristics.

Third : For two hours, first one hours is main class. One members run that time. After that, another one hours are group class

Fourth : For doing basic test. We know the level of students and readjusting the levels.

3. Korea language class

- Although we have only two times per one week, students are very eager to study Korea language. Also, we are highly motivated to teach.
- We are enjoying the class. We can share our culture and Bangladesh culture at Korea language class time. Therefore, we are planning for diverse curriculum.
- Now, our Korea language class schedule is fixed. Thanks to this, students attend more regularly.
- After we run teakwondo class, we can manage afternoon time more effectively. Based on our experience, next RaonAtti can use afternoon time better. We think it is better having time to share cultures.
- Running a Korean class, we want to learn the culture of Bangladesh and Garo culture. If it is possible, we want to attend Cultural Academy. We are running out of time.

4. Gardening

- Venue : Birisiri YMCA Campus
- Duration : 9. 23 ~ Continue
- Object : Growing Korea Crops and Bangladesh Crops. After we harvest the crops, we will make some foods and share a good time with village people.

- Process

1. Making Gardening Place.
2. Making Irang Gorang.
3. Making the fence.
4. Planting the seeds.
5. Maintaining Gardening Plants.

- Now, 열무 almost grow, 배추 and 부추's growing speed is little slow. Bangladesh Seeds '당근' is shown little process.

- Our Plan : Making Korean Food and Sharing with Village People.

4. Gardening

-Gardening Program is the most successful thing. Shuttara who took the job which made fence said it is very proud to finish the fence work. It was good purpose which is protecting environment by not using plastic fences.

-On the other hand, it takes a long time because we were not good at making fences and we receive a lot of helps from youth forum members and village people. Thanks to this time, we can do more communication with village people. After we finish the harvesting, we will share these crops.

-Also, we do not have modern farming tools. That's why we struggled to make Irang Gorang.

5. End poverty campaign

- **Venue** : Mohila durgapur college & Utral bazar
- **Targets** : college students. & local market People.
- **Preparation Process.**
 - Informing our thoughts and receiving feedback from youth forum members.
 - Through several meetings, we verified our objection and plan. After that, making materials.
- **Our object:** Informing the Bangladesh/ Whole world's Education Poverty to Students. Listening their thoughts and opinions, we shared with our thoughts and making base line of End Poverty
- **17th October Process**
 - Go inside to Classroom with Biplop Secretary. Informed about Raonatti and End Poverty Campaign.
 - Gathering Students ' thoughts about 'Poverty'.
 - Informing the importance of Education and the present condition of Bangladesh education.
 - Making videos that people shouts 'End Poverty Sentences'.
- **End Poverty Campaign** by JinJu YMCA run clothes donation campaign. Related to JinJu YMCA, we convey to Dahapara children and Birisiri village member.

5. End poverty campaign

5. End poverty campaign

-**Our campaign** was very active because we hold the campaign at crowded place. On the other hand, people could not follow our planning route.

Targets -students and Bazar people- are interested in us because we are foreigner. Targets were eager to write their opinion about poverty, so we can gather diverse opinions.

-**Our object** -Informing the poverty information and sharing opinions- was not fulfilled because of language problem. We cannot communicate with targets well.

-**Although** we cannot successful to our purpose, we provide the chance to think about poverty. Also we share our preparation time with youth forum members. At least youth forum members surely knew about poverty and share our opinions with us.

-**Clothes Donation** : We thought that it is better we buy some clothes at Birisiri because tax and delivery fee is so expensive. However, after we received clothes and took packages for children, we can feel JinJu people's warm mind. We are looking forward to see children's happy face. We should deliver not only clothes but also people's mind.

6. Alternative Tourism document making

- Object : Through Alternative Tourism, helping the village economy.
- Targets : Abroad YMCA related with Birisiri YMCA.
- Process
 1. Making basic rules about alternative tourism and gathering information.
 2. Taking a picture of Birisiri sightseeing spots.
 3. Selecting photos and Calculating budgets.
 4. Making Alternative Tourism Documents.

6. Alternative Tourism documents making

- **At Korea**, we were informed that we lead the Alternative Tourism documents making projects. However, it is not true that we lead this project. We were just taking some pictures and attached to documents which already made by Biprob Secretary. It was little disappointed because we add little helping.

- **Also**, we thoughts the concepts of Alternative tourism is that it can help local people's Economy such as eating at local restaurants and buying some stuffs at local market. But, tourism which we experienced is just normal travel.

- **It doesn't need** to think more creative idea because travel course is already made. We have a little doubt about the necessary of training at Korea because it was not similar between training at Korea and Bangladesh Activities.

Our Bangladesh Lifestyle.

Dhaka - savar ymca training center(9.6~9.16)

Birisiri - guest house(9.16~10.22) & host family(10.22~)

***Making Korean Food** : At Meatless Day. We made 감자전, 물김치, 식혜, 비빔밥, 김밥. Sharing time with Youth forum members. Especially, 추석, 30th October, we had a great time with Youth forum members.

***Extra chores**: Savar Training Centre, Birisiri Guest House provided every meals and extra chores. Thanking for every staffs.

***The rules between Raonatti group** : The rules which we made at Korea did not keep at Bangladesh because of situation. Instead of that, we discuss about Bangladesh profit rules.

- Fee of late coming : Nobody late.
- Because of Birisiri Situation, after 8 pm we go back to our home.

***Internet Situation** : Too slow to search enough information. Especially, we want to read raonatti another team's monthly report, we cannot read.

Our Future Plan

- **Dahapara School** : After students' test which planning at December, we will run variety classes; Art, PE, Science. Especially, we will show doll drama and animation movie. These programs can rise children's creativity. 세부 계획

1. Making Individual Gardening : Watching the process of growing plants.
2. Art Activities such as Mosaic.
3. Science Activities such as Shadow playing and water rocket.

- **Korea language Class** : First one hour, one teacher run the class. After that, we divide groups and run group classes. Recent test result show us students' level. Students can do basic conversation but their grammar is very weak. Grammar and conversation mix class will be provided at future.

- **Gardening** : 열무, 부추, 당근, 배추 does not grow yet. After mid December, we harvest the crops. We will make Korean foods.

- **Teakgwandoo**: Birisiri ask us to provide teakgwandoo class. Now, we are planning for this class. Class contents are basic motion, kick, 품새. If we have more information, we will teach them protecting technique.

Thank You 😊
